

INTERNATIONAL

Quality, Innovation and Reliability Engineering

PROGRAM

30 ECTS credits program in the field of Mechanical Engineering, Quality and Reliability Engineering at Bachelor's degree level

Location	Polytech Angers - Istia, University of Angers 62, Avenue Notre-Dame du Lac, 49000 Angers, France
Dates	Spring semester: January - June
Prerequisites	At least 120 ECTS (2 academic years) in any industrial engineering field
Tuition and administration fees	<ul style="list-style-type: none">• No fees for exchange students from partner universities• Approx. 600 euros for other students
Language	English
Application deadlines	Spring semester: 1 October of previous year

The international program at Polytech Angers, graduate school of engineering of University of Angers, is a one-term curriculum, starting each semester and bringing international and French students together. The program combines theoretical and applied courses in the field of quality, innovation and reliability engineering. Cross-disciplinary skills in human relations and project management are also developed. It is accessible without profound French knowledge.

The program includes 30 ECTS credits. Students get a transcript of records listing all modules they have taken.

PROGRAM CONTENT
