Project

COURSE DESCRIPTION

The role of financial markets in the economic development / Markets, products and investors /Organization and control of the financial markets

OBJECTIVES

This course provides the basis for an in-depth analysis of the Financial markets and their regulations. It explains the need for an efficient financial system. We then describe the main markets and products and explain why investors use them. Finally, we explain how the Post-market works and introduce market regulation.

PREREQUISITES

Economics and Finance Fundamentals
