COURSE DESCRIPTION

The course, French for medical purposes (FOM - Français sur Objectif Médical) is open to students in Health studies (medical or pharmaceutical studies, midwifery, etc.).

OBJECTIVES

This course allows students to learn specific vocabulary and practice the French medical language in role plays (simple diagnosis, relationships with patients etc.)

PREREQUISITES

This course requires a B1 level.

Exchange students will obtain 6 ECTS, but non-exchange students will not get credits. Instead, they will receive a certificate of successful completion at the end of the course.
